(86) 189-3059-6592 | sandyfffeng@gmail.com

PRODUCT MANAGER | PRICING & BILLING SYSTEMS, MONETIZATION

Product manager with 8+ years of experience building pricing, monetization, and complex product systems. Strong at translating ambiguous business problems into scalable product architecture, aligning Product, Engineering, BI, Operations, and Finance, and shipping data-driven pricing systems that increase transaction value, improve operational efficiency, and strengthen financial reconciliation.

EXPERIENCE

LALAMOVE (Series G) | Hong Kong S.A.R.

Product Lead, Marketplace | Aug 2023 – Present

Senior Product Manager, Pricing | May 2022 – Jul 2023

Product Manager | Aug 2020 – Apr 2022

- Led 8 initiatives optimizing supply-demand balancing, increasing annual transaction value by **US\$83M (8%)**.
 - **US\$65M (6.3%)**: Built and iterated a real-time dynamic surcharge system using pricing signals (demand, supply, order volume) at geo-segment levels; replaced manual interventions across 18 markets.
 - **US\$18M (1.7%)**: Identified unmet demand from time-sensitive users and piloted a Priority delivery option that achieved **5%** initial adoption before scaling to a stable **12%** penetration.
- Led a core pricing architecture revamp from vehicle-level to vehicle-group structures, reducing maintenance complexity; shipped in **8 weeks**, rolled out across markets in **5 weeks**, with 0 post-launch support tickets.
- Designed reconciliation workflows for platform transactions, matching order-level records with wallet balances and finance settlement outputs to reduce ambiguity in post-launch audits.
- Developed a team of 2 PMs, 5 developers and 1 QA through influence (no direct reports).

BUKITO (Pre-A) | Hangzhou, China

Product Manager (reporting to CTO) | Jul 2019 – Jul 2020

- Built the company's supply chain product (Order, Procurement, Warehouse Management Systems) and operating processes from 0 to 1, enabling scale to **US\$360K** monthly sales.
- Reduced procurement-related costs by **50%** through cross-functional process redesign.

BOTHUB.AI (Seed, Meta Partner) | Shanghai, China

Assistant Product Manager (reporting to CEO) | Oct 2017 – Jun 2019

- Launched a chatbot for e-commerce, defining intent taxonomies and dialogue sessions; automated **50K** monthly conversations (30% deflection rate), generated **US\$100K** in recurring revenue.
- Partnered with **4** enterprise clients, including SHEIN, to translate custom workflow requirements into reusable SaaS capabilities and standardized NLP training pipelines.

EDUCATION

University of Pennsylvania

Master of Computer and Information Technology | Aug 2025 – Present

- Current GPA: 4.0/4.0. Strengthening CS fundamentals and algorithmic thinking through core coursework.

East China University of Science and Technology

B.A. in Advertising | Jul 2017
